Hairy Growth Vanishes Before Your Very Eyes

The new way to remove superfluous hair—the phenetic way—is rapidly superseding the old-fashioned depilatory methods, as well as electricity, wax and tweezers. And no wonder. There is a product so harmless a child could safely eat it—so non-irritating and odorless it is altogether pleasant to use—and the process is so quick that it actually removes the hairs entire in just a few seconds! You will surely have the surprise of your life if you obtain a stick of phenetic from your druggist and follow the simple instructions which accompany it.

For Freckled, Tanned, Red or Blotchy Skin

Just beneath that freckled, tanned or reddened complexion there's an exquisitely beautiful skin of youthful tint and delicacy. If you could only bring this complexion to the surface, discarding the discolored one! You can, in the easiest, simplest, most natural manner imaginable. Just get at any drug store an ounce of ordinary marcoline and apply it morning and night with warm water. The wax assists nature by gradually peeling off the flaking particles of scorched and half-dead surface skin, causing no discomfort whatever. Cutaneous defects like pimples, blotches, liver spots, moth patches, freckles, of course, disappear with the old skin. Nothing else will accomplish such wonderful results in so short a time.

PILCURA CURES PILES

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

GOLD MEDAL HAZEL OIL

For Mosquito Bites

From time immemorial certain aromatic oils have been rubbed on the skin to keep mosquitoes away. For an equally long period alkalies have been applied to the bites to neutralize the poison of the stings. No one ever thought to combine the two—aromatic oils and alkalies—but Tyne's Anti-septic Powder, the great germ destroyer, is aromatic and alkaline in just the proportion best suited to prevent and destroy the bites and stings of mosquitoes and all insects. Excellent also for Poison Oak, Prickly Heat, etc. If you want a sample of this powder, free, write to J. S. Tyne, Chemist, Inc., Washington, D. C. For sale in three sizes—small, medium and large—by all drug and department stores. Remember the name—TYNE'S—accept no other.
